## What Are You Putting In Your Tank?

Victor M. Eskew

If you put even a small amount of gravel in your gas tank just once a week, eventually you are going to have some problems. Your car is going to start sputtering. Eventually, it may quit because of major engine damage.

The same is true of the mind of man. We must be careful about what we put into it. Just a little dirt, a little filth, a little negativity, a little hatred, a little cynicism, a little prejudice, a little anger, a little lust, a little envy, a little covetousness, a little self-doubt can bring harm to our thinking processes.

Why is this so dangerous? What we think is translated into emotions. What we think is then translated into attitude. What we think is ultimately translated into our behaviors. "Keep thy heart with all diligence; for out of it are the issues of life" (Prov. 4:23).

Paul exhorts us to think righteously in Philippians 4:8.

"Finally, brethren,  
whatsoever things are true,  
whatsoever things are honest,  
whatsoever things are just,  
whatsoever things are pure,  
whatsoever things are lovely,  
whatsoever things are of good report;  
if there be any virtue,  
and if there be any praise,  
think on these things."

He understood a modern saying: "Garbage in; garbage out."

My friends, we are not responsible "to" our mind. We are responsible "for" our mind. We can choose the things upon which we will think.

Question: "What are you putting into your tank?"

**If you're visiting with us today – WELCOME! – We're glad you're here!**
