## How Large is 69 Million?

Steve Higginbotham

Would you agree with me when I say that some numbers are just too large to grasp? For example, the number 69 million. Who can get their arms around that number? Just how large is that number?

Let me try to explain how large that number is. Think of this. The total combined populations of all these states totals 69,000,000.

- Tennessee
- Missouri
- Arkansas
- Louisiana
- Mississippi
- Alabama
- Georgia
- Florida
- South Carolina
- North Carolina
- Virginia
- West Virginia
- Kentucky

So what's the point? January 22, exactly 47 years ago this past week, our Supreme Court decriminalized abortion in the Roe -v- Wade decision. Since that date, our United States of America has legalized the murder of 69,000,000 innocent, pre-born babies. Let that sink in! Our government has smiled upon the murder of what is equivalent to the population of the entire southeast United States!

Friends, don't allow yourself to get comfortable with this. This is grossly immoral; a scourge on our land. How dare we wince at the barbarism of our ancestors forcing their children to pass through the fires of Molech, and fail to wince at our own national shame!

Muster the courage of the prophets and speak out! Take up the weapons God has given you and go to battle pulling down the immoral strongholds of our culture ([2 Corinthians 10:3-4](#)). We may never be able to extinguish the flames that were fanned on January 22, 1973, but when our time on earth is through, or when the Lord comes again, may we be found with a bucket of water in our hands!

**If you are visiting with us today - Welcome to Clinton! We are glad you're here!**

### THE ELDERS CORNER

Romans 12:18: If it is possible, as much as depends on you, live peaceably with all men. Hebrews 12:14: Pursue peace with all men, and holiness, without which no one will see the Lord. We live in a world that is self-centered and mostly not peaceful about anything. We must be different.
